**Magical   Molecules   Lab   Sheet**

What is chemistry?

What was used as the 1st adhesive (glue)?

How does glue work?

What is a chemical reaction?

What occurred when you added vinegar to milk?

What are curds and whey?

What reaction did you see when you added baking soda to the curds?

   Why do you think that is?

Once you have created your glue/paste, use it to glue a simple project.
